## A Recent Review!

"**Patty Schoelhamer** is the sole reason I have not left Mosaic. She is the best agent I have ever had. Her response time to my inquiries is off the charts amazing. I've gone months without emailing or talking with her but when we do finally connect, it's like we just spoke yesterday. I trust her 100% and love knowing I have her to go to...she may never retire."

Thank you for referring your friends, family, coworkers, neighbors, and local business owners! For every referral you sent in January-March, the Darrington Community Center will receive \$10 from Mosaic. Referrals are currently being tallied and the donation amount will be announced soon—so, stay tuned! The donation will go towards helping with center upkeep. For current needs of the center and volunteer opportunities, visit: [darringtoncc.org/donate/](http://darringtoncc.org/donate/).

We will announce our next charity in a few weeks!

## April Fool's Day Prank, Anyone?

"The funniest joke for April Fool's was when my daughter filled the little sugar bowl with salt! My husband puts sugar in his coffee and that year he got a bit of a different taste! He took a sip while driving to work and spit it out all over his work clothes! He was an engineering manager at Boeing and went to work with a salty wet shirt."

## National "Don't Be a Fool" Day

In addition to giggling this April 1st, don't forget to check your smoke alarms! "Don't Be a Fool" Day reminds us that our smoke alarms need some attention too.

### Does my smoke detector need new batteries?

1. Push the test button. The detector alarm should go off.
2. If there is no alarm, or it's weak, replace batteries and test again.
3. If new batteries do not make the tester noise work properly, you probably need to replace your detector.
4. The U.S. Fire Administration says to check detectors monthly and to replace batteries at least once a year.
