# MEGAN MAZINGO

A MOSAIC LICENSED INSURANCE SPECIALIST

I come from 15 years of customer service and business management experience. I excel at making connections and helping people. Starting my insurance career in 2021, I am new to the insurance world, but I am more than eager to assist people and look forward to helping our clients plan for all the curve balls life inevitably throws.

When I am not working, you will find me outside, likely covered in dirt! I am an avid gardener, and love growing food for my family. I have one daughter, who loves to help me with everything garden related. We also spend a lot of our free time exploring the pacific northwest. Camping, hiking, swimming, fishing...If it can be done outside, we will be there! I am also an avid reader, a self-proclaimed nerd, and fuel my need for creativity with painting, writing, and photography.
